INFORMATION ABOUT COVID-19 VACCINES AND BENEFITS

Hello **[First_Name]**,

The U.S. Food and Drug Administration (FDA) has given emergency approval for two COVID-19 vaccines, and distribution of those vaccines has begun. We know that supporting your employees in staying healthy during the pandemic is top of mind. The COVID-19 vaccine will be covered at no cost to all HealthSelect of Texas® plan participants, including Consumer Directed HealthSelectSM.

To help you explain the COVID-19 vaccine coverage to your employees, we've created the following resources and email for you to share.

- [COVID-19 and your HealthSelect Plan](#)
- [COVID-19 Vaccine Flier](#)
- [COVID-19 FAQ](#)

If you have questions about this email, please do not hesitate to reach out. Thank you for all that you do!

Please copy and paste the following information. Send it in an email to your employees.

INFORMATION ABOUT COVID-19 VACCINES AND BENEFITS

Vaccine Coverage

All HealthSelect of Texas® plans, including Consumer Directed HealthSelectSM, cover FDA-approved COVID-19 vaccines at no cost to you.

Vaccine Distribution Plan

The vaccine distribution plan is being updated as more vaccines become available. You should keep checking the [Texas Department of State Health Services \(DHS\) website](#) for the most up-to-date information about vaccine distribution.

Accessing the Vaccine

As availability of the vaccine increases, you can get the vaccine at your primary care provider's office, pharmacy and other locations. You can also find a vaccine provider by visiting the [Texas COVID-19 Vaccine Provider Locations map](#) or calling 2-1-1 in Texas.

Before making an appointment or heading to a pharmacy, visit the provider's website or call to ask about vaccine availability and if you need to bring any proof of qualifying condition. **There's a limited supply of vaccines.**

We recommend you bring your Blue Cross and Blue Shield of Texas (BCBSTX) medical ID card and your prescription drug ID card as proof of coverage to your vaccine appointment.

You may need more than one shot for effectiveness. Some of the COVID-19 vaccines require two doses. Once you get your first dose, make sure to ask about getting your second dose of the same vaccine before leaving.
